ABOUT US

The story of Lubaga Hospital started on 18th October 1899 when six missionary sisters of Our Lady of Africa arrived at Lubaga hill where they were given a plot of land of Land by Kabaka Daudi Chwa.

Beginning as an open-air dispensary in the first few months, the facility grew to a twenty-bed Hospital by 1900, and with the grace of God this journey of growth has since taken leaps and bounds to-date.

Being the second-oldest Hospital in the country, we take pride in having taken care of the health care needs of Ugandans for the last 122 years, through times of war, epidemics, natural disasters and now COVID-19 pandemic.

Presently, the Lubaga Hospital is a 240 bed-capacity referral unit offering a full range of specialized and super-specialized services, and with the Vision of being “a state-of-the-art health care facility in Africa”.

TRUSTEES AND MANAGEMENT

Trustees of the Archdiocese of Kampala

His Grace Archbishop
Paul Ssemogerere

**The Archbishop of Kampala
Archdiocese**

Executive Director

Dr Julius Luyimbaazi

Head of Obstetrics & Gynecology
Gynecologist

GENERAL CONSULTATION

General consultation is a meeting between a Doctor and a patient. Common goals include taking preventive measures to halt the development of various diseases particularly for patients who have risk factors, obtain a diagnosis for symptoms being experienced by the patient, or in the case of an annual checkup, to reassess the patient's risk of various medical conditions.

Dr. Derrick Kayondo

Dr. Joshua David Kavulu

MEDICAL IMAGING

Dr. Milka .G. Habte
