ABOUT US

LUBAGA HOSPITAL ANTHEM

The story of Lubaga Hospital started on 18th October 1899 when six missionary sisters of our lady of Africa arrived at Lubaga hill where they were given a plot of land by Kabaka Daudi Chwa.

Beginning as an open air dispensary in the first few months, the facility grew to a twenty bed Hospital by 1900, and with the grace of God this journey of growth has since taken leaps and bounds to-date.

Being the second oldest Hospital in the country, we take pride in having taken care of the health care needs of Ugandans for the last 125 years, through times of war, epidemics, natural disasters and now COVID-19 pandemic.

Presently, the Lubaga Hospital is a 240 bed-capacity referral/tertiary facility unit offering a full range of specialised, super-specialised and transplant services, and with the vision of being “a state-of-the-art health care facility in Africa”.

1. Oh Lord bless Lubaga Hospital
the patients and their attendants bless
we owe our success to your providence
in serving all your populace

Refrain:

Oh, proud we are of Lubaga Hospital
the champion care taker of our health
every body you and me; young or olden, every where
benefit from this good Samaritan x2

2. To God we attribute all the success
committed our staff day and night
Efficient for better services

The hospital excellence

3. with no discrimination ever at all
all persons shall be treated same
with long history of experience
All doctors, well wishes plan.

OUR VISION

To be a state-of-the-art Health Care Facility in Africa.

OUR MISSION

To provide suitable quality and compassionate Health services to the community for God's glory

OUR PRINCIPLES AND VALUES

1. team work
2. professionalism
3. Integrity and accountability
4. Respect for life and human dignity
5. Justice and Equity; Innovation

DENTAL SURGEON'S PROFILE

DR. Tino Jacenta

MBCHB(MUK), BDS (MUK)

Monday -Friday
(8:00am-5:00pm)

SERVICES OFFERED BY THE DENTAL SURGEON

1. Preventive

- Comprehensive Dental check-up
- Chronic Subdural hematoma
- Oral health education

2. Pediatric

- Pulpotomy
- Pulpectomy

3. Oral surgery

- Simple extraction
- Disimpactions
- Fixing of broken jaws(MMF)
- Incision and drainage(I andD)
- Minor surgeries

4. Periodontology

- Professional cleaning
(Scaling and polishing)
- Root Planning
- Teeth whitening
- Crown Lengthening

5. Prosthodontics

- Tooth replacement
(Dentures, Bridges)

3. Oral surgery

- Space maintenance
- Teeth alignment

NEURALSURGEON'S PROFILE

DR. Blessing Micheal Taremwa

MBCHB(MUST), MCS(ECSA), FCS Neuro surgery (ECSA), FRCS(UK)

Fellow skull base / Cerebral Vascular Surgery Medanta
Neurosciences institute New Dehli- India

SERVICES OFFERED BY THE NEUROSURGEON

1. Neurotrauma

- Acute Epidural/Subdural hematomas
- Chronic Subdural hematoma
- Spine fractures

2. Oncology

- Brain Cancers/Gliomas
- Complex Intracranial tumors and skullbase tumors
- Complex spine Tumors

3. Neurovascular lesions

- Brain Aneurysms, Arteriovenous Malformations, Cavernomas and Arteriovenous fistula

4. Epilepsy Surgery

- Including Vagus Nerve Stimulation (VNS)
- Temporal Lobectomies

5. Pediatric- Hydrocephalus

- Spina Bifida / Neural Tube defect, Encephaloceles

E.N.T (OTOLARYNGOLOGY) SURGEON'S PROFILE

DR. Julius Mwangi

MBCB, MMED ENT

Monday, Thursday & Saturday (9:00am-12:00pm)

SERVICES OFFERED BY THE E.N.T(OTOLARYNGOLOGY) SURGEON

1. Emergency ENT services

- Foreign bodies in the airway (bronchoscopy, Esophagus (oesophagoscope), Nose and ear, Upper air Obstruction (Tracheostomy) and Epistaxis management.

2. Head and Neck

- Surgical management of head and neck tumors i.e (Submandibular, Thyroid and neck cystic masses).

- Medical and surgical management of noses, sinus, smell and allergy disorders

4. Otology

- Medical, surgical and rehabilitation of hearing and balance disorders
- Management of ear infections

5. Pediatric Otolaryngology

- Management of sleep breathing disorders, sleep apnea and other E.N.T infections in children

NEPHROLOGIST'S PROFILE

DR. David Martin Atuhe

MBCHB(MUST), MMED Internal Medicine(UMU), Foundation Fellow of Internal Medicine(ECSA),
Fellow of Clinical Nephrology(UON), Fellow of International Society of Nephrology (East Africa Kidney Institute)

Thursday(2:00pm-5: 00pm)
Saturday(9:00am-12:00pm)

SERVICES OFFERED BY THE NEPHROLOGIST

Consultation for inpatient and outpatient

1. Investigations

- To confirm the absence or presence of Kidney disease
- Follow up progress of kidney disease
- Monitor diseases associated with kidney disease (diabetes,hypertension)

2. Kidney Biopsy Procedures High risk patient Management

- High blood pressure
- High blood sugar
- Overweight patients

3. Dialysis

- Counselling and preparation for dialysis
- Support for kidney Failure
- Vascular access for haemodialysis

4. Transplantation

- Preparation of donor and receipient for transplant process and procedure
- Follow-up of Donors after kidney removal
- Follow up of Kidney recipients after transplantation
- Counselling of such clients and families

GENERAL SURGEON'S PROFILE

DR. Kiyemba Henry

MBCHB(MUST), MMED- General surgery(MUK)

Monday -Friday(8:00am-5:00pm)

SERVICES OFFERED BY THE NEUROSURGEON

1. Emergency trauma Surgery
2. Damage Control surgery
3. Breast surgery
4. Anorectal conditions ie; Hemorrhoids, Fistula
5. Hernias
6. Thyroid Conditions

CARDIOVASCULAR AND THORACIC SURGEON'S PROFILE

DR. Naomi Kebba

MBCHB(MUK), MMED surgery(MUK),

MMED Cardiovascular and Thoracic Surgery(UON)

SURGERIES

Cardiothoracic

- Chest Wall Resection And Reconstruction
- Pericardiak Window For Cardiac Tamponade
- Eloeser Flap For Empyema Thoracis
- Open Decortication For Empyema Thoracis
- Esophagectomy
- Wedge Resection For Lung Nodules
- Lobectomy
- Pneumonectomy
- Open Lung Biopsy
- Bullectomy
- Bronchopleural Fistula Repair
- Thymectomy
- Chest Tumor Resection
- Esophageal Perforation Repair
- Chest Tube Insertion
- Pleurodesis
- Esophageal Diverticulectomy
- Heller Myotomy
- Traumatic Diaphragmatic Rupture Repair
- Nissen Fundoplication
- Congenital Diaphragmatic Hernia Repair
- Diaphragmatic Plication
- Exploratory Thoracotomy For Chest Trauma

Cardiovascular

- Venus Stripping
- Endovenous Laser Ablation
- Sclerotherapy For Varicose Veins
- Embolectomy
- Peripheral Arterial Bypass Surgery
- Endarterectomy
- Vascular Injury Repair
- Arteriovenous Malformation Repair
- Peripheral Pseudoaneurysm Repair
- Aortic Aneurysm Repair
- Arteriovenous Fistula For Hemodialysis
- Arteriovenous Graft For Hemodialysis
- Permanent Catheter Insertion For Hemodialysis

UROLOGY SERVICES

Wednesday & Thursday

UROLOGY CONSULTATION AND SURGICAL CLINIC FOR;

1. Enlarged prostate
2. Prostate cancer
3. Urethral structure
4. Kidney stone
5. Impotence
6. Urinal tract infection
7. Blood in urine
8. Congenital children genital abnormalities
9. Urine incontinence
10. Kidney and bladder Cancer
11. Kidney failure

DR. Julius Luyimbaazi

DR. Godfrey Nabunwa

EYE CLINIC

SERVICES OFFERED BY THE EYE CLINIC

1. Eye Surgeries
2. Glaucoma screening and treatment
3. Diabetic and Retinopathy screening and management
4. Comprehensive eye examination and treatment
5. Pediatric eye exam and surgeries
